

## ITEMS OF INTEREST.

Over 2,000 paintings have been sold in Boston this season.

Ex-Governor Tilden received the first prize at the New York dog show. He has a fancy for dogs.

It is proposed to erect a memorial window in St. Giles' cathedral, Edinburgh, to the late Dean Stanley.

Ex-Secretary Evans is giving more attention to farming. He has bought an addition to his Vermont farm.

A 25-pound Kennebec salmon, the first of the season, received in New York on Thursday, sold for \$1.75 a pound.

General D. H. Hill, a noted Confederate leader, has resigned the presidency of the Arkansas Industrial University.

The tone of the editorial articles brought out by the death of Darwin is remarkably unanimous in its recognition of the great naturalist's modesty.

Charles Francis Adams, since his adventure with the bunko men, has given entire control of his business affairs to his son, John Quincy Adams.

The daughter of the late Commodore Maury, who assisted him in the compilation of his well known geographical series, is a school teacher in Richmond.

There was more oleomargarine than butter exported from the United States in 1881, the figures standing at 20,000,000 to 21,000,000 of pounds respectively.

It is proposed to erect a statue of Longfellow in an open field over which he loved to gaze at the river and the hills, and to keep the field in the condition in which he knew it.

There is every probability that the company running steamboats on the Rhine will shortly attempt to light both shores of the river ahead, by means of the electric light, for the benefit of sight-seers traveling at night.

Mr. Damala, the husband of Sara Bernhardt, is a tall and handsome man of middle age, who looks the thorough Greek he is. His father was a merchant at Smyrna, and his mother was a daughter of M. Ralli, mayor of the Piræus.

Senator Mahone's wife returned from a European tour recently, and her husband welcomed her with a set of diamonds worth \$40,000. Mrs. Mahone is said to wear the handsomest and most costly jewels of any lady connected with public life.

At a wedding in Bay City, a few nights ago, the young male guests were eager to dance with the bride, which favor she gladly granted, on condition that they should sit up all night, which they did, and she stuck the lucifer down her dainty stocking leg.

The city council of Los Angeles, California, has unanimously passed a resolution that the Chinese in the city shall be removed from the territory known as the general fire limits, and that henceforth Chinese shall be excluded from said territory.

Queen Victoria has developed a great dislike of society, but she has suffered no loss of appetite. She is especially fond of boiled mutton, but she has no liking for farinaceous foods. The elderly raised at Sandringham—said her, but she soon got tired of even that.

Senator Teller has a large fortune, but lives very quietly in Washington with his amiable wife. To the general class called "society" they are little known. Mrs. Teller is tall, slender, black-eyed and black-haired. They have a daughter of 16 and two younger sons.

A consignment of 94 bales of raw silk arrived in New York on Monday from Hong Kong, but when opened were found to contain nothing but sea-weed and grass. The shippers were the notorious Vogel Bros., who had been paid \$17,000, the value of the raw silk.

The governor of Maryland is required to sign bills in the presence of the president of the senate and the speaker of the house, and Speaker Keellholtz is now ill, while there are 270 bills to be signed or rejected. The governor says, however, that there are only eight or ten in which he takes any interest, and he hopes that Mr. Keellholtz will recover in time to witness the signing of these.

Selma, (Ala.) Times: Gaudy birds in colors and combinations of dazzling red, bright yellow, inky black and azure blue have again, as has been the case for several springs past, put in an appearance. Where they come from and whether they go are questions we are unable to answer. They remain but a short time, making the trees quaintly muscled with their peculiar chirping songs, and then suddenly leave.

Michael R. Furlong, a lawyer of Springfield, Illinois, and Mrs. Peynado, a very wealthy widow of Louisville, met for the first time at Hot Springs, Arkansas, and were in the same hotel a week. On parting, they each promised to consider the question of marrying, and, if of the same mind at the end of another week, to go to the Southern hotel, St. Louis, to meet the other. Both were on hand at the appointed time and place, and the wedding was celebrated.

A woman in Taylor county, Georgia, recently gave birth to twins, one of which from the waist down was a perfect child, but from that point upward was, in the language of the doctor, "a perfect bull-frog." The other child was born with a bare hip, two front upper teeth, the right leg badly deformed, and the bowels, liver, and in short, all the intestines except the heart and lungs were found growing on the outside of the body. These remarkable specimens are now being preserved in alcohol.

The diplomatic corps at Washington is said to enjoy a circus very much, as one of the alleviations in their somewhat monotonous life. There is one thing they do not enjoy, and that is the putting on of their stiff and heavy court suits. The wife of one of them says, in her piquant broken English: "My husband does begin to profane a week before any occasion of state. He does not so much dislike the wearing of that so heavy dress, and so do they all. They do all profane about it."

Deputy Sheriff Cobb, of Americus, Georgia, undertook to levy on Charles Manson's mule. The mule was a notoriously hard kicker; but Manson offered to hold him alongside a fence, from which the officer could get on his back. Just as this manœuvre was almost accomplished, the beast threw Cobb by a vicious plunge and kicked him frightfully. Manson is now under arrest on the charge of obstructing the law by kicking the mule in the nose with a straw, just at the critical juncture. But the mule is still unseized.

The London Economist of April 1 publishes some facts which go to show that the emigrants now leaving Great Britain for America, are of a class who take out with them an average of \$200 per capita, and states that within the past month this drain has shown its effects upon the English money market. The total number of immigrants for the calendar year will probably exceed 1,000,000, and from the better classes now coming, it cannot be but that a vigorous impulse will be given to what would be, even without this aid, a pushing and virile growth throughout all our western country.

**Is Physical Perfection Worth Striving For?**  
You will wish to perfect in mind and body. Do you wish to be healthy and strong in all your parts? Then lay all other remedies aside and use **Dr. Williams' Pink Pills**. It will surely infuse new life and new vigor into the whole human system. It gives perfection to every part, invigorates the muscles and strengthens the nerves.

**A New Southern Industry.**  
The latest resources of the south are yet to be developed, and if the discoveries of the next quarter of a century could be und-

denly flashed upon our sight, there are few of us who would not be astonished. Every day produces something new and wonderful. Yesterday we were shown by Mr. Jas. H. Carradine a sample of fibre and of rope constructed from it, which was left with Mr. Carradine by Dr. Meux, of Carroll parish, Louisiana, which, in our opinion, is superior to either jute or hemp. The history of the production of this sample is this: An old negro man in Carroll parish, being in need of some rope which he was unable to procure, began to cast about for something which would supply his want. His attention was directed to that well-known and troublesome weed, the wild coffee plant. He cut the stalks and treated them in the same manner he had been accustomed to treat hemp in Kentucky, and the result was a fibre of good length and surprising strength, which the old man soon converted into rope. The sample of fibre shown to us was fully eight feet in length and much softer and stronger than lute, and can, with ease, be twisted into the very best of rope. Thus we have in a plant which, a few years ago, and probably still, is considered a plantation pest, a material which if cultivated and cared for would supply all the rope and bagging used in the south.—(Natchez Democrat.)

If there ever was a specific for any one complaint than Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

**Machinery Depot,**  
DALLAS, TEXAS,  
Opposite Texas & Pacific Depot.  
JEO. B. DEATHERINGTON, Manager

**HOW TO TELL**  
Genuine Simmons' Liver Regulator, or Medicine.  
Look for clean, neat WHITE WRAPPERS with the red letter S, embracing the emblem of our trade, Spatula, Mortar and Grindstone; also observe the signature of J. H. ZEILIN & CO., in red ink on the side. Beware of those who know nothing of Medical Compounds, who put on postures known to sour and being analyzed prove worthless, and only made to deceive the public and to praise on the well earned reputation of Zeilin & Co.'s medicine. These frauds have no reputation to sustain, and will cheat you for a few pennies every way they can. Look carefully to the medicine you are induced to take, for much suffering, permanent injury, and even death itself has resulted from improper treatment, and from taking unskillfully prepared medicine.  
CASSVILLE, ARK., July 8, 1879.—Dear Sirs:—I send you another package of the counterfeits; it is called a trial package. It says it cures you nothing, but it like to have cost me my life. Yours, &c., JOHN GRUFFIN.

**HOSTETTER'S**  
CELEBRATED  
**STOMACH BITTERS**  
For a quarter of a century or more Hostetter's Stomach Bitters has been the reigning specific for indigestion, dyspepsia, fever and ague, a loss of physical stamina, liver complaint and other disorders, and has been most emphatically endorsed by medical men as a health and strength restorative. It counteracts a tendency to premature decay, and sustains and comforts the aged and infirm.  
For sale by all druggists and dealers generally.

**Railroads.**  
**Missouri Pacific**  
RAILWAY.  
"THRO' DENISON THE GATE."  
Starting from the great State of Texas it passes through the beautiful Indian Territory and thriving cities and towns of Kansas and Missouri, reaching the Mississippi River at St. Louis and Hannibal, and the Missouri at Kansas City, in which cities close connections are made in Union Depots with Railway Lines leading to all parts of the United States.  
Passengers who purchase Tickets over the MISSOURI PACIFIC RAILWAY have  
**NO CHANGE OF CARS**  
AND DAILY TRAINS  
BETWEEN THE FOLLOWING CITIES:  
Houston and St. Louis,  
Dallas and St. Louis,  
Houston and Sedalia,  
Dallas and Sedalia,  
Houston and Fort Scott,  
Dallas and Fort Scott,  
Denison and St. Louis,  
Denison and Hannibal,  
Denison and Kansas City,  
San Antonio and St. Louis,  
Austin and St. Louis,  
Fort Worth and St. Louis,  
Kansas City and St. Joseph.

**SMOKE the GENUINE DUKE of DURHAM**  
Smoking Tobacco, Cigarettes  
Long cut and cross cut. Best, purest and finest smoking tobacco in the world. The market is now flooded with cheap, so-called Durham Tobacco, all of which are imitations of Duke's, and you should know them as you would any other counterfeit. Ask your grocer or dealer for DUKE'S DURHAM TOBACCO, and if they attempt to put you off with an inferior article, insist on having Duke's only, and if they will not give it to you, go to some dealer who keeps it, and see that it has a Duke on each package. Very truly yours,  
**W. DUKE SONS & CO.,**  
A. W. CHILDRESS, Gen'l Agent, Dallas, Texas. DURHAM, N. C.
